## About Me

I have 4.2+ years of professional expertise in full stack web and app development. I am a Keen learner and love to work on any Technical Stuff and ready to learn new things on Professional as well as personal aspect. Searching for opportunities to get experience and learn new tech stacks.

## Experience

### Senior Software Developer — LogisticsNow Pvt Ltd

October 2020 – Present

- Spearheaded the development of live features for B2B web and mobile apps, connecting transporters and manufacturers to optimize supply chain logistics.
- Utilized React, Python, and Microsoft Azure tools (CosmosDB, Function Apps, SignalR) to build scalable and high-performing applications.
- Designed intuitive UI workflows and system architectures using Balsamiq, Figma, and draw.io, ensuring seamless user experiences.
- Played a key role in recruitment, evaluating and onboarding candidates for development roles to strengthen the technical team.

### Team Lead, Full Stack Developer (Intern) — Upcloud Technology

March 2020 – October 2020

- Developed a Doctor's App using Flutter and Dart, delivering a cutting-edge solution for efficient healthcare management.
- Designed and implemented a patient-centric web app, enabling profile creation, appointment booking, and a feedback/review system.
- Led a team of 4-5 developers, providing technical guidance and ensuring successful project delivery within deadlines.

### Associate Software Engineer Intern — LogisticsNow Pvt Ltd

December 2019 – March 2020

- Developed a ReactJS-powered map web application, showcasing skills in creating functional and efficient location-based solutions.
- Tested web applications, identified bugs, and provided feedback to enhance performance and user experience.
- Participated in a 24-hour hackathon, successfully building a basic testing app under tight deadlines, demonstrating problem-solving and time management skills.

## Education

### KJ Somaiya College of Engineering

B.Tech in Computer Engineering

Jul 2017 - Oct 2020

### M.M. Babasaheb Gawde Institute of Technology

Diploma in Computer Technology

Aug 2014 - Oct 2017

---

## Technical Skills

Programming:

ReactJS, Python, Flutter, Dart,  
JavaScript, Redux

Cloud:

Microsoft Azure Cloud (CosmosDB,  
Function Apps, Form Recognizer,  
Cognitive Service), Firebase, Google  
Cloud

Others:

Monolithic, Microservices Architecture

Tools:

Balsamiq, Figma, draw.io

## Projects

Fire Extinguishing Support System:

- Developed a smart system integrating IoT and app features to notify nearby fire stations during emergencies.

TiffinVilla: Android-based application

- Providing users access to homemade food services.

Inventory Management App:

- Simplified stock maintenance and transfer for logistics drivers.

---

## Interests

Full Stack Development,  
AI/ML, Solutions Architect,  
Problem Solving, Debugging.

## Achievements

LogisticsNow: Spot Award:

- Work Completion on dedicated Timeline.
- Dedication towards work.

3rd in Technical Paper Presentation

- Ideation For TiffinVilla Project, Android App to send the homemade tiffin from one place to another
